おわりに Recapitulation

- 定量的指標(IF, iMD, etc.)で質は測れない
Quantitative metrics cannot measure quality.
- 評価は多様であるべき（定量、定性、雑誌、著書など）
Evaluation should be done from diverse viewpoints (quantitative, qualitative, journals, books, etc.).
- iMDは人文社会系分野のニーズに部分的に応えうる新たな指標
iMD is a new metric that could partially meet the needs to evaluate research in Humanities and Social Sciences.
